

Triple Bingo Instructions

Simply write 25 questions that your group can answer. I run the questions in 5 sets of 5 questions in a row. The first PowerPoint slide of each series of 5 has a short version of the music as a way of announcing the round. I put one question on one slide.

You can reward each matching pattern with candy, or wait until three patterns are attained.

I use a 25th Bonus Question that the participants can put anywhere they choose and perhaps complete another pattern.

Feel free to modify your Bingo game as you see fit.

You can send comments to doug@dougkelley.com.

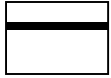

Thanks!

Doug Kelley

TRIPLE BINGO

INSTRUCTIONS

1. Choose a box and write the word "FREE" across it.
2. Number the boxes 1 - 24 in any order you choose.
3. When you answer a question correctly, draw an "X" across the box for that numbered question.
4. In order to win, you must have any three of the following patterns:

ACROSS

DOWN

DIAGONAL

DIAGONAL

5. When you've matched three patterns, shout "BINGO!"
